

## Flow ECo 160P

Item number: 240.40.0133.0

€ 1.677,43

EAN: 5703347206368

With 20-year warranty on technical parts and 10-year color warranty, ECoFlow 160P is the ultimate roof fan for any roof. Easy to install, enjoy a safe and efficient indoor climate!

ECoFlow 160P is a high-quality roof fan, backed by impressive warranties - 20-year warranty on technical parts and 10-year warranty on color from the manufacturer. Designed for easy and waterproof installation, where rainwater is safely drained along the side of the fan.

ECoFlow 160P is intended for installation on pitch roofs and is compatible with nearly all roof types. Pass-throughs for various roof types must be purchased separately.

The product comes with a galvanized steel inner pipe with a diameter of Ø160. It can be connected to all Thermex range hoods without a motor. However, some require the purchase of a Thermex AC/DC converter. All range hoods with Thermex Voicelink require no additional purchases. Contact the sales department if in doubt.

### Specifications:

Color: Black (RAL 9005)

Motor: EC with 0-10V control

Power Consumption: 85W

Revolutions: 2580 rpm

Voltage: 230V

The package includes the roof fan, screws, and a comprehensive installation, user, and maintenance manual, ensuring easy setup and long-term effectiveness. ECoFlow 160P is your reliable partner for ventilation, ensuring a comfortable indoor climate with minimal maintenance.

EAN: 5703347206375

With 20 years warranty on technical parts and 10 years color fastness, ECoFlow 160S is the ideal roof fan. Easy installation and enjoy a safe and efficient indoor climate!

ECoFlow 160S is a top-quality roof fan, delivered with impressive warranties - 20 years warranty on technical parts and 10 years warranty on color fastness from the manufacturer. This roof fan is designed for easy and waterproof installation, where rainwater is safely drained down along the side of the fan via built-in drains.

ECoFlow 160S is intended for installation on flat roofs. A galvanized steel roof foundation can be purchased for installation on asphalt roofs.

It can be connected to all Thermex range hoods without a motor. However, some require the purchase of a Thermex AC/DC converter. But all range hoods with Thermex Voicelink require no additional purchases. Contact the sales department if in doubt.
