Super Cooler/Heater can quickly solve smaller cooling and heating needs

Thermex SuperCooler/ Heater VII can quickly solve smaller cooling and heating needs. The Super Heater is delivered complete, ready to plug into the socket. The exhaust hose is led to a window or through a wall. The facility's various functions make it usable all year round. The Super Heater is easily moved to places where the cooling or heating needs are greatest. Is suitable as a "spot-cooler" or "spot-heater" in larger rooms.

NOTE: The Super Heater cannot be used as the only source of heat in a room.

Control Not relevant
